

Verra Mobility launches AutoKinex™ to provide drivers with seamless and secure in-vehicle payments; Partners with Stellantis for nationwide automated tolling service

November 20, 2025

- *Connected vehicle technology enables drivers to pay for tolling, road usage charging, parking, fueling and EV charging*
- *Unlocks new revenue opportunities for auto manufacturers*
- *Stellantis is the first automaker to offer Verra Mobility's AutoKinex™ for seamless, pay-as-you-go tolling*

MESA, Ariz., Nov. 20, 2025 /PRNewswire/ -- Verra Mobility Corporation (NASDAQ: VRRM), a leading provider of smart mobility technology solutions, today announced the launch of [AutoKinex](#)™, its OEM-ready, in-vehicle commerce platform that integrates payment technology to pay for mobility services like tolling, road usage charging, parking, fueling and EV charging.

Verra Mobility has partnered with Stellantis to provide AutoKinex to drivers of 2021 model year and newer Chrysler, Dodge, Jeep® and Ram vehicles in the U.S.

Drivers can learn more and verify whether their vehicle manufacturer has enabled the AutoKinex platform by visiting [autokinex.com](#). For all other automotive brands, drivers can enroll to use the service for automated toll payments, without in-vehicle display notifications.

Built on Verra Mobility's 20-year expertise in tolling and connected mobility, AutoKinex transforms vehicles by enabling seamless, secure transactions directly from the car, without additional hardware or mobile apps. Payments are processed instantly and securely, while real-time charges are displayed in the vehicle, if enabled, giving drivers a transparent and frictionless commerce experience.

Using AutoKinex as a service, drivers of compatible vehicles can pass through most toll plazas nationwide without stopping or needing to track down local tolling authority websites to register and make payment. If users frequent gated tolling locations that require a transponder, Verra Mobility will provide one at no charge.

AutoKinex verifies the location of the vehicle in relation to the toll site, matches that to the tolling agency's rates and automatically pays the toll on behalf of the driver. Drivers will see a confirmation of the toll rate in the vehicle's infotainment screen, if enabled.

"With AutoKinex, we're improving the driving experience and simplifying payments to enable drivers to pay for everyday services, such as tolls, directly from their vehicle," said Stacey Moser, Executive Vice President of Verra Mobility's Commercial Services business. "AutoKinex also provides automakers with a scalable revenue channel by embedding today's essential services and payments in the vehicle, paving the way for future connected mobility experiences. We are proud to partner with Stellantis as the first automaker to bring this groundbreaking connected vehicle service to market."

Verra Mobility piloted AutoKinex with hundreds of Chrysler, Dodge, Jeep® and Ram drivers throughout the U.S. AutoKinex is available through the branded owner mobile apps and [www.autokinex.com/stellantis](#). Enrollment is free and new users receive their first 30 days at no cost.

As automakers accelerate their shift toward delivering enhanced value through connected services, AutoKinex offers a plug-and-play solution that simplifies the experience for drivers. By consolidating multiple mobility services into a single, commerce-ready and intuitive platform, AutoKinex eliminates the complexity of managing disparate tools, helping manufacturers provide a seamless and smarter driving experience.

About Verra Mobility

Verra Mobility Corporation (NASDAQ: VRRM) is a leading provider of smart mobility technology solutions that make transportation safer, smarter and more connected. The company sits at the center of the mobility ecosystem, bringing together vehicles, hardware, software, data and people to enable safe, efficient solutions for customers globally. Forward-Looking Statements

We describe factors that drive our business and future results in this press release. Such discussions contain forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Forward-looking statements are those that address activities, events, or developments that management intends, expects, projects, believes or anticipates will or may occur in the future. They are based on management's assumptions and assessments in light of past experience and trends, current economic and industry conditions, expected future developments and other relevant factors. They are not guarantees of future performance, and actual results, developments, and business decisions may differ significantly from those envisaged by our forward-looking statements. We do not undertake to update or revise any of our forward-looking statements, except as required by applicable securities law. Our forward-looking statements are also subject to material risks and uncertainties that can affect our performance in both the near- and long-term. In addition, no assurance can be given that any plan, initiative, projection, goal, commitment, expectation, or prospect set forth in this press release can or will be achieved. These forward-looking statements should be considered in light of the information included in this press release, our Form 10-K, and other filings with the Securities and Exchange Commission. Any forward-looking plans described herein are not final and may be modified or abandoned at any time.
