Verra Mobility to expand red-light and speed enforcement in Hawaii with 10-year contract

February 19, 2026

Data shows 76% reduction in major crashes at automated enforcement sites

MESA, Ariz., Feb. 19, 2026 /PRNewswire/ -- Verra Mobility Corporation (NASDAQ: VRRM), a leading provider of smart mobility technology solutions, is expanding its red-light and speed enforcement program with Hawaii Department of Transportation (HDOT) across the entire state, making it the first statewide automated enforcement program in the United States. The 10-year contract totaling approximately $160 million will expand the current program from 17 sites to 187 dual-enforcement cameras across each of the state's major islands.

In the first year of the program, red-light data from Oahu overwhelmingly showed that automated enforcement improved driving behavior and reduced deadly crashes. The program showed:

- A 62% decline in daily red-light running violations issued at camera locations
- A 76% reduction in the major crash rate
- 90% of violators did not receive a second citation after being issued a first

The speed enforcement part of the program was turned on earlier this year with clear evidence of its need. In the first six months of launching speed enforcement, more than 510,000 violations were captured – with some vehicle speeds exceeding 100 mph.

"We're honored to be a part of something that is creating major safety improvements for the state and the lives of its residents," said Edward Tiedje, vice president, Government Solutions, Verra Mobility. "Hawaii has shown immense leadership in elevating the safety needs of the entire state. They've executed strategically and quickly in order to prioritize road safety. Verra Mobility is proud to work with the entire HDOT team on such a groundbreaking program."

Verra Mobility is already working to start construction on the next phase of cameras. In 2026, 30 additional cameras are expected to be installed and running, with each major island receiving cameras in the following years.

About Verra Mobility

Verra Mobility Corporation (NASDAQ: VRRM) is a leading provider of smart mobility technology solutions that make transportation safer, smarter and more connected. The company sits at the center of the mobility ecosystem, bringing together vehicles, hardware, software, data and people to enable safe, efficient solutions for customers globally. Verra Mobility's transportation safety systems and parking management solutions protect lives, improve urban and motorway mobility and support healthier communities. Headquartered in Arizona, Verra Mobility operates in North America, Europe and Australia. For more information, please visit www.verramobility.com.

Forward Looking Statements

We describe many of the trends and other factors that drive our business and future results in this press release. Such discussions contain forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Forward-looking statements are those that address activities, events, or developments that management intends, expects, projects, believes, or anticipates will or may occur in the future. They are based on management's

assumptions and assessments in light of past experience and trends, current economic and industry conditions, expected future developments, and other relevant factors. They are not guarantees of future performance, and actual results, developments, and business decisions may differ significantly from those envisaged by our forward-looking statements. We do not undertake to update or revise any of our forward-looking statements, except as required by applicable securities law. Our forward-looking statements are also subject to material risks and uncertainties that can affect our performance in both the near- and long-term. In addition, no assurance can be given that any plan, initiative, projection, goal, commitment, expectation, or prospect set forth in this press release can or will be achieved. These forward-looking statements should be considered in light of the information included in this press release, our Form 10-K, and other filings with the Securities and Exchange Commission. Any forward-looking plans described herein are not final and may be modified or abandoned at any time.
