Verra Mobility Teams with U.S. Bank to Deliver Toll Management Solution

September 29, 2026

Voyager's specialized fleet payment and management system now gives U.S Bank fleet customers seamless access to Verra Mobility's toll management solution across the United States

MESA, Ariz., Sept. 29, 2026 /PRNewswire/ -- Verra Mobility Corporation (NASDAQ: VRRM), a leading provider of smart mobility technology solutions, today announced an integration with U.S. Bank, one of the nation's leading payment and fleet card platforms for companies that operate fleet vehicles, to automatically pay and record tolls on participating toll roads across the nation. The solution simplifies toll payments, reduces administrative burden and gives fleet operators greater visibility and control over toll expenses. Running on the proprietary U.S. Bank Voyager® Network, the new tolling service joins current services like fuel, EV charging, maintenance and more to support all fleet vehicle types with one bill and full reporting in a dedicated driver portal.

As toll roads continue to expand across the United States, fleet operators face increasing complexity managing toll charges and violations across multiple tolling authorities to maintain fleet compliance. By integrating with Verra Mobility, U.S. Bank Voyager customers benefit from a unified toll management solution backed by one of the largest toll processing platforms in the country, with more than 300 million transactions annually across 7 million fleet vehicles. The solution simplifies how fleets manage toll payments and violations nationwide, helping reduce unexpected costs, administrative burden, and time spent on back-office tasks.

"Managing tolls across the country can quickly become complicated for fleets," said **Stacey Moser, chief customer officer, Verra Mobility**. "By partnering with Voyager, we're giving fleet operators an advanced technology solution designed to handle toll payments, reduce costly toll violations and get a clearer picture of their toll expenses and all through a platform they already use."

The U.S. Bank Voyager Fleet Program provides comprehensive fuel and maintenance payment solutions designed to simplify fleet management for businesses. The program offers nationwide acceptance at more than 320,000 locations for fuel, maintenance services and EV charging. By integrating Verra Mobility's toll management technology, the Voyager platform now adds another layer of efficiency, helping fleets save time, reduce administrative burden and better manage transportation expenses.

"Our customers rely on Voyager to help simplify fleet operations and provide clear visibility into their expenses," said **Jeff Pape, head of transportation, U.S. Bank Corporate Payment Systems**. "By integrating Verra Mobility's toll management capabilities into the Voyager platform, we are extending our ability to deliver a more connected solution that supports informed decision-making and consistent, well-managed growth. This integration helps customers more efficiently manage toll activity, maintain compliance and operate with greater transparency."

The Voyager Toll Management solution powered by Verra Mobility is now available to U.S. Bank Voyager customers.

Headquartered in Arizona, Verra Mobility operates in North America, Europe, Asia and Australia. For more information, please visit www.verramobility.com.

Forward Looking Statements

We describe initiatives that drive our business and future results in this press release. Such discussions contain forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Forward-looking statements are those that address activities, events, or developments that management intends, expects, projects, believes or anticipates will or may occur in the future. They are based on management's assumptions and assessments in light of past experience and trends, current economic and industry conditions, expected future developments and other relevant factors, including but not limited to the anticipated benefits and expected performance of our integration with U.S. Bank Voyager for toll management, the expected simplification of toll payments and reduction of administrative burden for fleet operators, the anticipated expansion of toll roads across the United States and the resulting demand for toll management solutions, and our ability to deliver technology solutions that help fleet operators manage toll expenses, maintain compliance and reduce costly toll violations. They are not guarantees of future performance, and actual results, developments and business decisions may differ significantly from those envisaged by our forward-looking statements. We do not undertake to update or revise any of our forward-looking statements, except as required by applicable securities law. Our forward-looking statements are also subject to material risks and uncertainties that can affect our performance in both the near-and long-term. In addition, no assurance can be given that any plan, initiative, projection, goal, commitment, expectation, or prospect set forth in this press release can or will be achieved. These forward-looking statements should be considered in light of the information included in this press release, our Form 10-K and other filings with the Securities and Exchange Commission. Any forward-looking plans described herein are not final and may be modified or abandoned at any time.

Additional Information

We periodically provide information for investors on our corporate website, www.verramobility.com, and our investor relations website, ir.verramobility.com.

We intend to use our website as a means of disclosing material non-public information and for complying with disclosure obligations under Regulation FD. Accordingly, investors should monitor our website, in addition to following the Company's press releases, SEC filings and public conference calls and webcasts.
