**Basis of Presentation**

We acquired HTA on March 1, 2018 and EPC on April 6, 2018.

On October 18, 2018, Verra Mobility completed a business combination with Gores Holdings II, Inc., a special purpose acquisition company.

**EBITDA and Adjusted EBITDA.**

We define EBITDA as net income (loss), net of interest expense, income taxes, depreciation and amortization. Adjusted EBITDA further excludes certain non-cash expenses, including loss on extinguishment of debt and other transactions that management believes are not indicative of our business. Because EBITDA and Adjusted EBITDA, as defined, exclude some but not all items that affect our cash flow from operating activities, they may not be comparable to similarly titled performance measures presented by other companies. EBITDA and Adjusted EBITDA margins are calculated as EBITDA and Adjusted EBITDA, respectively, divided by total revenues expressed as a percentage.

We use these metrics to measure our performance from period to period both at the consolidated level as well as within our operating segments, to evaluate and fund incentive compensation programs and to compare our results to those of our competitors. In addition to Adjusted EBITDA being a significant measure of performance for management purposes, we also believe that this presentation provides useful information to investors regarding financial and business trends related to our results of operations and that when non-GAAP financial information is viewed with GAAP financial information, investors are provided with a more meaningful understanding of our ongoing operating performance. EBITDA and Adjusted EBITDA have certain limitations as analytical tools and should not be used as substitutes for net income, cash flows from operations, or other consolidated income or cash flow data prepared in accordance with GAAP.

**Free Cash Flow**

We define "**Free Cash Flow**" as cash flow from operations less capital expenditures.

**Adjusted Net Income**

We define "**Adjusted Net Income**" as net income (loss) less amortization expense, impairment of property and equipment and non-cash stock compensation.

**Adjusted EPS**

We define "**Adjusted EPS**" as Adjusted Net Income divided by the diluted weighted average shares for the period.
